# 1. INTRODUCTION

- 1.1. The National Planning Policy Framework (NPPF) includes a requirement for local planning authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements.
- 1.2. This report sets out the five year land supply position for Central Lincolnshire for the period 2023 to 2028. This report is based on monitoring data as at 31 March 2023 and as provided by each district within Central Lincolnshire.
- 1.3. This report sets out the details of:
  - the national and local policy context for calculating the five year supply;
  - the housing requirement for Central Lincolnshire during the five year period taking into account any necessary past undersupply and buffers as required by national policy;
  - the anticipated supply of homes across Central Lincolnshire in the five year period; and
  - the calculation of the five year housing land supply position for Central Lincolnshire.

## 2. POLICY CONTEXT

### NATIONAL CONTEXT

- 2.1. The NPPF was originally published in 2012 and was subsequently revised in July 2018, February 2019 and July 2021. The revised NPPF included substantive amendments to the policy requirements in relation to housing land supply and it also introduced a number of other new policy requirements relating to plan-making and decision taking.
- 2.2. Paragraph 74 of the NPPF requires local planning authorities to identify and update annually a supply of *“specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old.”*
- 2.3. The NPPF goes onto define what is to be considered ‘deliverable’ in its glossary:

*“To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*

  - a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
  - b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.”*
- 2.4. Paragraph 74 also requires local planning authorities to *“include a buffer (moved forward from later in the plan period) of:*

  - a) 5% to ensure choice and competition in the market for land; or*
  - b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or*
  - c) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.”*

- 2.5. The NPPF stipulates in footnote 41 that the 20% buffer in option c) is measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement.
- 2.6. The NPPF also allows for incorporation of a windfall allowance in the five year period in paragraph 71, where there is compelling evidence that they will provide a reliable source of supply. Any windfall allowance should be realistic having regard to the strategic housing land availability assessment, historic delivery rates and expected future trends.

- 2.7. Additional planning guidance is provided in the National Planning Practice Guidance (PPG), originally introduced in 2014. In July 2019 the Government updated much of its [Guidance on 5 year housing land supply and Housing Delivery Test](#).
- 2.8. The PPG builds on the requirements of the NPPF providing substantial detail of what is expected of local planning authorities in order to demonstrate a five year supply of housing. This five year land supply report seeks to satisfy the requirements of both the new NPPF and the detailed guidance. Rather than duplicating the guidance here specific reference to national policy and guidance is drawn out in relevant sections detailing the Central Lincolnshire five year land supply position in this report.

## THE LOCAL CONTEXT

- 2.9. The Central Lincolnshire Local Plan was adopted on 13<sup>th</sup> April 2023, covering the period 2018-2040. It is a joint plan covering the administrative areas of City of Lincoln, North Kesteven and West Lindsey.
- 2.10. The Local Plan introduced a housing requirement for Central Lincolnshire of 24,244 dwellings across the plan period which equates to 1,102 dwellings per year and was based on the standard method for calculating Local Housing Need at the time of the plan being examined. This housing requirement is a Central Lincolnshire requirement and it has not been divided up into separate requirements for each of the local planning authorities in the area.
- 2.11. The Local Plan allocates more than 100 sites ranging from 10 dwellings in size to the sustainable urban extensions, the largest of which is anticipated to deliver approximately 3,400 homes in the plan period (6,000 homes overall) and supporting infrastructure for the area. These sites are spread across the 150+ settlements in the top 6 tiers of the Settlement Hierarchy set out in Policy S1.
- 2.12. The Local Plan allocates sites with enough land to deliver approximately 26,000 homes in the plan period and, when combined with other sites that have delivered since 2018 and which are currently in the planning system, there is enough land to supply some 32,000 homes – substantially more than the 24,244 requirement, and this is before any account is taken for windfall.

### 3. THE FIVE YEAR REQUIREMENT

- 3.1. With the Local Plan being adopted in April 2023 there is a recent housing requirement set, based on the standard method for calculating local housing need. This figure is 1,102 dwellings per year. The approach to this calculation is set out in the evidence for the Local Plan and was approved by the Local Plan Inspectors.
- 3.2. Over a five year period this equates to a base requirement of 5,510 dwellings.

#### PAST COMPLETIONS AND SHORTFALL/SURPLUS

- 3.3. The Local Housing Need calculation takes into account past shortfalls of housing in the inclusion of the affordability ratio in the calculations. As the Local Housing Need figure for Central Lincolnshire is based on the 2022 figure, any past shortfall at that point has been included in deriving the housing requirement.
- 3.4. However, delivery since that date should be taken into account to understand if there is any remaining shortfall. Table 1 sets out the performance of housing delivery since the start of the plan period in 2018, including the delivery in 2022/23.

Table 1: Past delivery of dwellings in Central Lincolnshire

District	2018/19		2019/20		2020/21		2021/22		2022/23		Total	
City of Lincoln	346	+/- requirement	205	+/- requirement	167	+/- requirement	148	+/- requirement	159	+/- requirement	1,025	+/- requirement
North Kesteven	698		760		469		558		773		3,258	
West Lindsey	407		573		485		589		681		2,735	
Total	1,451		1,538		436		1,121		19		1,295	

- 3.5. Table 1 shows that the housing requirement has been consistently exceeded since the start of the plan period, with an average delivery of 1,404 dwellings per year.

#### ADDING BUFFERS

- 3.6. In addition to the five year requirement, paragraph 74 of the NPPF requires local authorities to include a 5% buffer to ensure choice and competition in the market for land; or 10% where the local planning authority wishes to demonstrate a five year supply through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or where there has been a record of persistent under-delivery of housing, the buffer should be increased to 20%. Footnote 41 of the NPPF makes it clear that persistent under-delivery will be measured against the Housing Delivery Test (HDT).
- 3.7. It is made clear in the NPPF that these buffers are moved forward from later in the plan period and is not an additional requirement for more housing. The PPG also

makes clear in paragraph 022<sup>1</sup> that only one of the buffers should apply and that they are not cumulative.

- 3.8. The PPG and the HDT Rule Book detail the process for calculating HDT. This introduces a delivery test across the past three years to consider how much housing has been delivered against the housing requirement. Paragraph 12 of the HDT Rule Book also makes it clear that, for the purposes of the HDT, the housing requirement to be used is the lower of the adopted housing requirement in a Local Plan or the annual local housing need figure – based on a national standardised method of calculating local housing need.
- 3.9. The most recent Housing Delivery Test was published in January 2022 and this confirmed that the Central Lincolnshire Authorities had delivered 175% of the requirement and as such a **5% buffer** should be applied to the five year requirement.
- 3.10. Given that the Central Lincolnshire authorities delivered 1,295 dwellings in 2021/22 and 1,613 dwellings in 2022/23 – it is clear that the HDT will continue to be passed with substantial clearance and Central Lincolnshire will continue to meet the HDT and will therefore retain a 5% buffer for this year’s calculation.

*Table 2: Calculating the Five Year Housing Requirement for Central Lincolnshire*

<b>A</b>	Baseline housing requirement from standard method (see table 1)	1,102 dwellings
<b>B</b>	Housing requirement including 5% buffer (A x 1.05)	1,157 dwellings
<b>C</b>	Five year housing requirement (B x 5)	5,786 dwellings

- 3.11. Therefore the **five year housing requirement for Central Lincolnshire is 5,786 dwellings.**

## 4. THE FIVE YEAR SUPPLY

- 4.1. Now that the requirement is known, it is necessary to assess the supply of deliverable housing sites in Central Lincolnshire.

### SITES IN THE SUPPLY

- 4.2. As is detailed in the NPPF, only deliverable sites can be included in the five year period. For a site to be considered deliverable it *'should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years'*.
- 4.3. Deliverable sites can come from a range of sources of information, for example through allocations in the Local Plan, or sites where full or outline permission have been granted, for example. Through monitoring it is possible to present robust, up to date information on the sites that make up the Central Lincolnshire land supply, and to understand which sites are deliverable and how many homes will be delivered in the five year period.
- 4.4. The NPPF glossary details that for sites that are not major development (i.e. fewer than 10 dwellings, or smaller than 0.5 hectares in size) and for sites where detailed planning permission has been granted, these should be considered deliverable until such time as permission expires, unless there is clear evidence that they are no longer deliverable. The glossary and the revised PPG stipulates that sites of 10 or more dwellings (or 0.5 hectares or larger) without detailed planning permission should only be considered deliverable where there is evidence that housing completions will begin on site within 5 years.
- 4.5. The Central Lincolnshire Five Year Land Supply is made up of sites that accord with the NPPF requirements including sites with permission and sites allocated in the adopted Local Plan. Officers at North Kesteven, West Lindsey and City of Lincoln have assessed each of the individual sites with regards to the expected timescales for delivery. These assessments have included an extensive consultation of land owners, developers and agents representing sites in the supply.
- 4.6. Appendix B provides a list of all sites included in the five year supply and the expected delivery rate. These are separated out according to the site status as follows:
- Small development sites (i.e. fewer than 10 dwellings or smaller than 0.5 hectares) in Appendix B1;
  - Major development sites with detailed permission granted in Appendix B2; and
  - Major development sites with outline permission granted or that are allocated without permission at this time in Appendix B3.

More information is provided against sites with outline permission and sites without permission at this time where they are expected to deliver within the five year period. There are also many sites which are not included in the five year supply,

due to an absence of evidence to demonstrate that they will be delivered within the five year period. Many of these sites are unconstrained and could also come forward within the five year period. Officers will continue to liaise with land owners, agents and developers to understand the latest position on sites in the supply.

- 4.7. In considering the timings and delivery rates of sites, officers have made contact with builders, agents and land owners of sites to understand their anticipated delivery. Typically where information obtained provides a robust position for a site's delivery, this information has been used to inform a site's trajectory.
- 4.8. In order to test the expected delivery timescales and build rates, a number of assumptions have been developed based on experience with real world example sites across Central Lincolnshire. These assumptions are set out in the accompanying Central Lincolnshire Housing Assumptions Report, October 2019.
- 4.9. In Appendix B, where a site already has planning permission, the dwelling figure is that for which permission was granted. Where a site is under construction, the outstanding dwelling figure shown is the remaining number still to be completed (at 1 April 2023) in accordance with the permission. For sites that are allocated but do not yet have planning permission the figure used is the 'indicative dwelling' set out in the adopted Central Lincolnshire Local Plan, unless through other discussions with land owners or through pre-application discussion or a live planning application it is clear that an alternative capacity is more appropriate.

## SUPPLY FROM COMMUNAL ACCOMMODATION

- 4.10. The NPPF and PPG allows for account to be taken of delivery of student and other communal accommodation, based on the amount of housing they free up to the market.
- 4.11. Paragraph 34 of the Housing Supply and Delivery section of the PPG states:

*“All student accommodation, whether it consists of communal halls of residence or self-contained dwellings, and whether or not it is on campus, can in principle count towards contributing to an authority's housing land supply based on:*

- *the amount of accommodation that new student housing releases in the wider housing market (by allowing existing properties to return to general residential use); and / or*
- *the extent to which it allows general market housing to remain in such use, rather than being converted for use as student accommodation.*

*This will need to be applied to both communal establishments and to multi bedroom self-contained student flats. Several units of purpose-built student accommodation may be needed to replace a house which may have accommodated several students.*

*Authorities will need to base their calculations on the average number of students living in student only accommodation, using the published census data, and take steps to avoid double-counting. The exception to this approach*

*is studio flats designed for students, graduates or young professionals, which can be counted on a one for one basis. A studio flat is a one-room apartment with kitchen facilities and a separate bathroom that fully functions as an independent dwelling.”<sup>2</sup>*

- 4.12. Paragraph 35 of the same section of the PPG also goes onto make an allowance for housing for older people, where it says:

*“Local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, as part of their housing land supply. This contribution is based on the amount of accommodation released in the housing market. Further guidance is set out in Housing for Older and Disabled People.”<sup>3</sup>*

- 4.13. As such it is wholly appropriate to factor in development for student and other communal accommodation into the housing supply. The guidance sets out a process to identify the amount of housing released by communal accommodation using ratios for student accommodation and residential institutions. The calculations to establish these ratios have been made and are set out in Appendix A. The ratios applied to the different types of accommodation are shown below:

*Table 3: Student accommodation and residential institutions ratios*

<b>District</b>	<b>Student dwelling ratio</b>	<b>Residential institution ratio</b>
City of Lincoln	2.90	1.8
North Kesteven	2.26	1.8
West Lindsey	2.01	1.8

- 4.14. By using the Government ratios, provided in Table 3, a figure can be incorporated into the five year supply resulting from such developments.
- 4.15. There are a number of sites with permission for student accommodation or for a residential institution across Central Lincolnshire, many of which are expected to be delivered within the 5 year period (2023/24-2027/28). These developments are expected to free up a total of 280 dwellings to the market in the five year period as is shown below.

*Table 4: No. of bedrooms with permission in communal accommodation and no.of dwellings released.*

<b>District</b>	<b>Student bedrooms</b>	<b>Dwellings released<sup>4</sup></b>	<b>Communal accommodation</b>	<b>Dwellings released<sup>5</sup></b>	<b>Total dwellings released</b>
City of Lincoln	425	146	80	44	190
North Kesteven	0	0	151	84	84
West Lindsey	42	19	54	30	49
Total	467	166	285	158	323

- 4.16. Details of sites making up the supply of student accommodation and residential institutions is provided in Appendix B4.

<sup>2</sup> Reference ID: 68-034-20190722

<sup>3</sup> Reference ID: 68-035-20190722

<sup>4</sup> Using the ratios as detailed in Table 3.

<sup>5</sup> Using the ratios as detailed in Table 3.

## WINDFALL ALLOWANCE

- 4.17. The NPPF<sup>6</sup> states that ‘*where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends*’. The adopted Local Plan allocates sites of 25 dwellings or more, therefore there is justification for including a windfall allowance for small sites below 25 dwellings. The inclusion of these sources of windfall were endorsed by the Local Plan Inspectors.
- 4.18. The 2023 Local Plan allocates sites of 10 or more dwellings, reduced from the 25-dwelling threshold in the 2017 Local Plan. The policies in the new Local Plan provide a positive and flexible approach to development in settlements across the area in policies S1, S3 and S4. As such, small windfall sites will continue to make up an important part of the supply in Central Lincolnshire. We can see the recent delivery on sites of up to 10 dwellings in Table 5 below.

*Table 5: Dwellings delivered on sites of up to 10 dwellings*

	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23
Dwellings on sites of up to 10 dwellings	241	233	312	350	303	294

- 4.19. The revised policies and threshold for site allocations in the new Local Plan are expected to continue to deliver a high number of dwellings through windfall sites in the area. However, given that these policies are new and are a change from the previous plan, there is yet to be substantial evidence of this delivery at this time.
- 4.20. As such, whilst it is highly likely that more than 200 dwellings per year will continue to be delivered through small sites, it is proposed to take a conservative approach and not include any windfall in the five-year supply at this time.

## 5. CALCULATING THE FIVE YEAR SUPPLY

- 5.1. The following table provides a summary of the five year supply of deliverable housing sites based on site status at 31 March 2023. Full details are set out in Appendix B.

Table 6: Estimated supply for the five year period

Type of permission	2023/24 Yr 1	2024/25 Yr 2	2025/26 Yr 3	2026/27 Yr 4	2027/28 Yr 5	Estimated total in five years
Small <sup>1</sup> sites with permission	321	346	302	163	74	<b>1,206</b>
Large sites with detailed permission	1,322	1,532	1,329	1,129	788	<b>6,100</b>
Large sites with outline permission or adopted Local Plan allocations	-	104	315	578	556	<b>1,553</b>
Student accommodation and residential institutions	121	19	44	66	73	<b>323<sup>2</sup></b>
Windfall allowance	-	-	-	-	-	<b>0</b>
Total	1,764	2,001	1,990	1,936	1,491	<b>9,182</b>

**Note 1:** Small sites in table 6 relate to sites of up to 10 dwellings with large sites being 'major' development

**Note 2:** Please note that communal figures are rounded down.

- 5.2. The five year land supply results are set out in the Table 7.

Table 7: Housing land supply in the five year period

A	Housing requirement including buffer (see Table 5)	5,786 dwellings
B	Average annualised housing requirement (A ÷ 5)	1,157 dwellings
C	Estimated housing supply in five year period (see Table 6)	9,182 dwellings
D	Total years' worth of supply in the five year period (C ÷ B)	<b>7.9 years</b>

The results show that the Central Lincolnshire Authorities have sufficient land to more than meet the five year requirement of 5,786 dwellings and can demonstrate **7.9 years of deliverable supply**.

- 5.3. The Central Lincolnshire Districts will continue to work with developers to ensure a consistent and sustainable supply of housing land. Through the review of the Central Lincolnshire Local Plan, additional sites may be allocated and added to the supply where evidence justifies their inclusion in subsequent reports.

## APPENDIX A – Ratios for Student and Other Communal Accommodation

### Student Accommodation

2011 Census Data (CT0773) – Number of students in student only household

Dataset population: All student only households where all students are aged 18 or over \*

Table 8: Number of students in student only households

District	All student only households	Size of student only household														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
Lincoln	1,179	325	209	224	243	88	71	7	6	1	1	1	1	0	1	1
NKDC	126	51	33	20	15	5	0	0	0	0	0	1	1	0	0	0
WLDC	101	42	27	22	9	1	0	0	0	0	0	0	0	0	0	0
Central Lincs	1,406	418	269	266	267	94	71	7	6	1	1	2	2	0	1	1

Table 8 identifies how many of each size student only households there were in Central Lincolnshire in the 2011 Census. However, in order to obtain the ratio, it is necessary to extrapolate this information to understand the total number of students in Central Lincolnshire, living in each size of student only accommodation. This is provided in Table 9, below.

Table 9: Total number of students by size of student only household

District	All student only households	Number of students living in communal accommodation of by number of students in the accommodation															Ratio	
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+		Total
Lincoln	1,179	325	418	672	972	440	426	49	48	9	10	11	12	0	14	15	3,421	<b>2.90</b>
NKDC	126	51	66	60	60	25	0	0	0	0	0	11	12	0	0	0	285	<b>2.26</b>
WLDC	101	42	54	66	36	5	0	0	0	0	0	0	0	0	0	0	203	<b>2.01</b>
Central Lincs	1,406	418	538	798	1,068	470	426	49	48	9	10	22	24	0	14	15	3,909	<b>2.78</b>

Table 9 demonstrates the ratio for each of the Central Lincolnshire authorities and also what the ratio would be for Central Lincolnshire as a whole. Given the differences between each of the districts (in terms of their built nature and the types of student accommodation likely to be delivered) it is proposed that, rather than taking the Central Lincolnshire average of 2.78, that the ratio for each District be applied where student accommodation is proposed.

## Older Persons Accommodation

2011 Census Data (CT0774) - Age of Household Reference Person (HRP) by number of adults in household

Dataset population: All Household Reference Persons (HRPs) aged 16 or over

Table 10: Total number of households by size of household

District	Total	Size of households														
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15+
Lincoln	39,823	16,345	18,534	3,405	1,127	259	123	11	9	4	1	2	1	0	1	1
North Kesteven	45,971	14,252	26,781	3,821	945	144	19	2	2	1	1	2	1	0	0	0
West Lindsey	38,384	12,479	21,524	3,403	823	128	19	7	1	0	0	0	0	0	0	0

Table 10 shows how many of each size household there were in the 2011 Census. As for with the students, it also needs to be extrapolated into the number of people living in each size household in order to arrive at a ratio. This is provided in Table 11 below.

Table 11: Total number of adults by household size

District	Total number of adults (aged 16 or over) by size of household																Ratio
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	Total adults	
Lincoln	16,345	37,068	10,215	4,508	1,295	738	77	72	36	10	22	12	0	14	15	70,427	1.769
North Kesteven	14,252	53,562	11,463	3,780	720	114	14	16	9	10	22	12	0	0	0	83,974	1.827
West Lindsey	12,479	43,048	10,209	3,292	640	114	49	8	0	0	0	0	0	0	0	69,839	1.819

The average for England and Wales is also 1.8 when rounded. Therefore, as this rounded figure is being used in the HDT Rule Book and the Central Lincolnshire figures all round to this, it is proposed that a ratio of 1.8 should be applied to calculations relating to any residential institutions in Central Lincolnshire in order to calculate the amount of general market dwellings released.

	CL526 / COL/ABB/002	Former Main Hospital Complex, St Anne's Road, Lincoln	Allocation	CofL	Lincoln	50	0	50	0	0	0	0	0	0	0	0	0	0	Site owners have confirmed through discussions with City of Lincoln Council plans to secure permission on smaller area of the site for a reduced number from the allocation (126 dwellings). Whilst it may deliver within the five year period, there is no clear evidence to demonstrate it at this time so a cautious position has been taken with the supply position.
	CL4430 / COL/MIN/001	North West of Lincoln Road Romangate, Lincoln	Allocation	CofL	Lincoln	60	0	60	0	0	0	0	0	0	7	7	20	Site controlled by the developer of the neighbouring site which is being developed and site confirmed to be available now. Developer has confirmed intention to develop this site when the neighbouring site is complete which is timed to complete by 2027 with this site then coming on stream during that year.	
	CL699 / COL/MIN/006	Land at Nettleham Road, (Junction with Searby Road), Lincoln	Allocation	CofL	Lincoln	39	0	39	0	0	0	0	0	0	0	0	0	Site is owned by the City Council which is also the developer. Detailed preapplication discussions have taken place. Site identified in City of Lincoln's Housing Strategy for delivery before 2025. However, a cautious approach is being taken at this time in relation to delivery in the absence of any further progress.	
	CL818 / COL/ABB/001	North East Quadrant (phase 2)	Allocation	CofL	Lincoln	900	0	900	0	0	0	0	0	0	0	0	40	Phase 2 of NEQ which sits wholly within City boundary is not phased to deliver in 5 year period.

	COL/MIN/005	Land at Cathedral Quarry, Riseholme Road, Lincoln	Allocation	CofL	Lincoln	75	0	75	0	0	0	0	0	0	0	0	0	A detailed application is being considered for this site. Likely to deliver within the five year period, however a cautious timescale used to allow for determination and delivery to commence.	
2017/1393/RG3, 137101	CL532 / COL/CAS/001	Land North of Ermine West(Queen Elizabeth Road)	Allocation	CofL / WL	Lincoln	325	22	303	0	0	0	0	0	0	0	0	30	Permission has lapsed on this site. City of Lincoln Council are the owner. Whilst there is potential that it will come forward in the five year period, there is no evidence at this time to justify it's inclusion.
