Introduction

The purpose of this document

1. This document provides a record of the publication that took place regarding the Barlings, Newball, Stainton by Langworth and Reasby Neighbourhood Development Plan Area and related Neighbourhood Planning Body. The main methods used to promote the publication process are also documented, along with the main findings from the publication. As this was only a publication process and not a more open consultation, the response rate was not expected to be high.
2. This formal publication period provided members of the public and other key stakeholders an opportunity to submit comments on the area application from Langworth Group Parish Council to re-designate the Langworth Neighbourhood Plan Area to comprise Barlings, Newball, Stainton by Langworth and Reasby parishes for the purposes of producing a Barlings, Newball, Stainton by Langworth and Reasby neighbourhood development plan. The proposed neighbourhood planning body is Langworth Group Parish Council and the proposed neighbourhood planning area is shown in Appendix 1 with the Parish Council's application.

Regulations and government guidance

3. The regulations associated with this first stage of neighbourhood planning provide guidance on the criteria to be included for this phase. Within this publication, we as the local planning authority must publicise on our website:
 - a copy of the area application
 - details of how to make representations; and
 - the date by which those representations must be received, being:
 - (i) in the case of an application to which paragraph (2)(b) of regulation 6A applies, not less than four weeks from the date on which the area application is first publicised;
 - (i) in all other cases, not less than six weeks from the date on which the area application is first publicised.

Publication timescales

4. The proposed publication period was from 15 December 2023 to 9 February 2024. See Appendices 3 and 4.

Timescales break down as follows:

Publication period	12.12.23 – 09.02.24

Email	0
Web consultation system	0

Outcomes
